Medicaid Personal Care (MAPC)

Medicaid Personal Care (MAPC) services assist an individual with the activities of daily living that are necessary to maintain the individual at home. These services are provided by a state contracted personal care agency upon written orders of a physician. A nursing assessment determines whether a person is eligible for services and approves and authorizes the number of hours to be provided.

Personal care staff assist with:

- Personal Care: bathing, dressing, toileting, grooming, mobility, eating
- Household Care: light cleaning in essential areas of the home used during personal care services
- Nurse delegated tasks: mechanical lift transfers, G-tube feeding, catheter care

Cost of services may be covered through:

- Medicaid or a long term care Medicaid program
- Not covered under Medicare

Training and Regulation:

- Medicaid Personal care workers receive training and are supervised by a Registered Nurse and follow a written plan of care.
- Medicaid Personal Care Agencies are certified and regulated by the WI Department of Health Services Division of Quality Assurance.
